Subject Index to Volumes 44 and 45

Algae
metals in and transfer to herbivorous fish, 44(3):298
PFOS toxicity in, 44(3):307
PCB-induced oxidative stress in, 45(1):59
oxidative stress from metals in, 45(3):337
oxyfluofen toxicity in, 45(4):439
Amphibian
endocrine disruption in frogs, 44(2):247
effects of endosulfan on tadpoles, 45(2):221
PCB accumulation in, 45(4):519
Arsenic
in edible fish, 45(2):264
cytoxicity of, 45(3):324

Bioaccumulation
of dodecylbenzene sulfonate in aquatic species, 44(2):237
Bioremediation
of a VOC mixture, 45(1):1
Birds
organochlorines in nestlings, 44(1):89
toxicokinetics of PCBs in doves, 44(1):97
embryo toxicity of Hg, 44(2):257
Hg in, 44(2):265
chlorinated hydrocarbons in, 44(3):360
Hg exposure and immunotoxicity in birds, 44(4):493
biomarkers in leucocytes for immunotoxicity in, 44(4):502
Pb toxicity in swans, 44(4):510
behavioral effects of metals on songbirds, 45(1):121
metals and PCBs in goshawks, 45(1):128
PCBs in, 45(1):136
contaminant transfer to eggs, 45(2):273
metal contamination of egrets, 45(3):399
chlorinated hydrocarbons in, 45(3):407
dioxin accumulation in cormorant eggs, 45(4):527
Hg in eagles, 45(4):556

Chlorinated hydrocarbons
in nestlings, 44(1):89
in west African farms, 44(2):171
in Pakastani birds, 44(3):360
in seals, 44(4):533
in cotton field soils, 45(1):30
effects on tadpoles, 45(2):221
global monitoring in tuna, 45(3):378
in predatory birds, 45(3):407
in marine sediments, 45(3):306
solid phase extraction of, 45(4):423
Crustaceans
acetylcholinesterase of shrimp, 45(3):371
Al toxicity in crawfish, 45(4):503

Endocrine toxicity
in frogs, 44(2):247
from PCBs in mice, 44(2):272
Explosives
phytotoxicity of, 44(2):198

Fish
nonylphenol residues in, 44(1):77
altered swimming performance, 44(3):383
accumulation of tributyltin in, 44(3):390
contamination by petroleum and PCBs, 44(4):485
biomarkers of metal contamination in, 45(1):110
toxicity testing of dibromoethane, 45(1):66
Hg biomagnification in, 45(2):235
chlorpyrifos toxicity to larval walleye, 45(2):258
As in and risk assessment, 45(2):264
DNA damage from Cu in, 45(3):350
effect of Cu on Tilapia larvae, 45(3):357
bioaccumulation of PAH in, 45(3):364
V toxicity in toadfish, 45(3):415
behavioral effects of pesticides in, 45(4):509

Herbicides
degradation in macrocosms, 44(1):67
in cotton field soils, 45(1):30
effects on periphyton communities, 45(1):48
bacterial toxicity of, 45(3):317
earthworm toxicity testing of, 45(3):343
oxyfluofen toxicity in algae, 45(4):439
Human exposure
to PCBs, 44(1):125
to PAH, 44(4):454
to bis-phenol A, 44(4):546

Immunotoxicology
of Hg in birds, 44(4):493
measurements using cryopreserved leucocytes, 44(4):502
In vitro toxicity testing
of metal availability using fish hepatoma cells, 45(1):86
insect toxicity
transfer of insecticides among grasshoppers, 44(3):377
of organophosphates in fly larvae, 45(2):209
of Naled on bees, 45(2):216
Invertebrates
cypermethrin toxicity in, 45(4):492
metals in horseshoe crabs, 44(1):36
Zn toxicity in Daphnia, 44(2):210
PFOS toxicity in, 44(3):307
toxicity of chelating agents in, 44(3):332
toxicity testing of dibromoethane, 45(1):66
sediment toxicity testing using, 45(1):72
daphnid effluent toxicity testing, 45(1):79
determination of lipid peroxides in, 45(2):177
Hg toxicity resistance in, 45(2):184
acute toxicity of parathion in, 45(3):331
risk assessment of pesticides using, 45(4):455
bioaccumulation of metals in, 45(4):462

Marine invertebrates
metals in, 44(2):218
CCA toxicity assessment in, 45(1):37
metals and PCBs in echinoderms, 45(2):190
Marine mammals
metals in dolphins, 44(4):523
chlorinated hydrocarbons in seals, 44(4):533
Mercury
bird embryo toxicity from, 44(2):257
in warblers, 44(2):265
in whale liver and real toxicity in rats, 44(3):412
and immunotoxicity in birds, 44(4):493
in lake sediments, 45(1):11
toxicity resistance in oligochaetes, 45(2):184
biomagnification in fish, 45(2):235
toxicity in oligochaetes, 45(4):456
in eagles, 45(4):556
Metals
Pb in artificial digestive fluid, 44(1):107
Pb absorption in CACO-2 cells, 44(1):116
in periphyton communities, 44(1):17
in horseshoe crabs, 44(1):36
and metallothionine in clams, 44(1):53
humic acid effects on absorption of, 44(1):83
in Spanish street dust, 44(2):160
in mushrooms, 44(2):180
in diatoms, 44(2):189
Zn toxicity in Daphnia, 44(2):210
determination in benthic species using ICP-MS, 44(2):218
digestion model for bioaccessibility of, 44(3):281
in algae and transfer to herbivorous fish, 44(3):298
in water from mining activities, 44(3):314
in sediment pore water, 44(3):343
in waterbird liver, 44(3):398
in voles, 44(3):405
oxidative effects of Pb in rats, 44(3):417
Pt in soil, 44(4):430
sorption of phosphate and, 44(4):445
accumulation in mussels, 44(4):476
in dolphins, 44(4):523
bioconcentration of Cd in snails, 45(1):102
behavioral effects in songbirds, 45(1):121
in goshawks, 45(1):128
effects in epibiota, 45(1):37
availability determination using fish hepatoma cells, 45(1):86
in oysters and sediments, 45(1):92
effects on lichen, 45(2):159
and placental biomarkers of smoking, 45(2):278
multivariate analysis in river water, 45(3):289
in interstitial water, 45(3):297
and oxidative stress in algae, 45(3):337
effects in Tilapia larvae, 45(3):357
Pb kinetics in crocodile, 45(3):390
in egrets, 45(3):399
V toxicity in toadfish, 45(3):415
principal component analysis of, 45(4):430
bioaccumulation in marine worms, 45(4):462
free ion activity model using mollusks, 45(4):473
Al toxicity in crawfish, 45(4):503
in birds, 45(4):541
Mibrobial degradation
of chlorophenoxy herbicides in bacteria, 45(3):317
of antibiotics, 44(1):7
Molluscs
contaminant exposure in, 44(1):43
and metallothionine in clams, 44(1):53
chlorinated HCs in, 44(2):224
water chlorination and effects on mussels, 44(3):369
accumulation of metals in, 44(4):476
bioconcentration of Cd in snails, 45(1):102

metals in oysters and sediments, 45(1):92
free ion activity model using, 45(4):473

Organophosphate pesticides
reproductive effects in parasitoid wasps, 45(2):203
toxicity in fly larvae, 45(2):209
toxicity of Naled on bees, 45(2):216
toxicity to larval walleye, 45(2):258
transport through fabric, 45(2):283
invertebrate toxicity of, 45(4):455
solid phase extraction of, 45(4):423
Organotin compounds
accumulation in flounder, 44(3):390

PCBs furans + dioxins
in a residential community, 44(1):125
assessment of analytical methods for, 44(1):132
toxicokinetics of PCBs in doves, 44(1):97
in marine environments, 44(2):224
and mouse endocrine toxicity, 44(2):272
collection on window film, 44(4):421
emissions from medical wastes, 44(4):460
in goshawks, 45(1):128
in seabirds, 45(1):136
and oxidative stress in algae, 45(1):59
PBBs in food web, 45(2):227
accumulation in amphibians, 45(4):519
Petroleum hydrocarbons
contamination of flatfish, 44(4):485
Physical chemical methods
for PCB analysis, 44(1):132
for pesticides in water and sediment, 44(4):437
for PFOS in water, 45(2):149
Phytotoxicity
of explosives, 44(2):198
Polycyclic aromatic hydrocarbons
solute properties of, 44(2):152
compost-mediated removal of, 44(3):336
collection on window film, 44(4):421
measurement using personal air samplers, 44(4):454
contamination of flatfish, 44(4):485
bioaccumulation in fish, 45(3):364

Radionuclides
bioavailability and trophic transfer of, 44(1):30
Reactive oxygen species
in fig leaves from urban air pollution, 45(2):168
and determination of lipid peroxides in invertebrates, 45(2):177
and placental biomarkers of smoking, 45(2):278
from Cu in fish and mollusks, 45(3):350
from S02 in mice, 45(3):423
from dioxin accumulation in cormorant eggs, 45(4):527
Reptile
Pb kinetics in crocodile, 45(3):390

Selenium
transfer to bird eggs, 45(2):273
Soil + sediments
containing estrogenic activity, 44(1):1
from pesticide-treated rice farms, 44(2):144
sorbent properties with PAH, 44(2):152
and explosives phytotoxicity, 44(2):198
monitoring hydrophobic contaminants in, 44(3):288
compost-mediated removal of PAH from, 44(3):336
alter fish swimming performance, 44(3):383
Hg in lake sediments, 45(1):11
adsorption of chlorpyrifos to, 45(2):258
contaminants in, 45(3):306
toxicity in mollusks, 45(4):486

Water quality
and estrogenic activity, 44(1):1
in European rivers, 44(1):17
and mining activities, 44(3):314
assessment of coal processing effluent, 44(3):324
from pore water assessments, 44(3):343
of an urban stream, 44(3):351
assessment using invertebrate bioassays, 45(1):72
testing using daphnids, 45(1):79
measurements of PFOS, 45(2):149
of interstital water samples, 45(3):297
PCBs in, 45(4):541
